.....

Previous cases:

Recovered	134
Total deaths including (BNH)	17

.....

Templeton has one active case as of 10/12/2020, the positive case from 10/11/2020 was released after negative test results. This state and many other states are seeing an uptick in positive cases, the recommended approach is to continue to be vigilant with face covering, physical distancing and frequent hand washing.

As outdoor activities come to a close due to colder temperatures, please remember that you want to continue to physical distancing (including from family members) in order to protect yourself and your loved ones.
