

The following numbers are real time from reports received from the Massachusetts Virtual Epidemiologic Network (MAVEN) and tracked in the Board of Health office.

Active cases:	24
Cases attributed to BNH (Alliance Health)	0
Cases attributed to Templeton residents	24

.....

Previous cases:

Recovered	163
Total deaths including (BNH)	17

.....

Templeton has twenty-four active cases as of 11/23/2020; according to the state, Templeton is in a state of red, there is lag time with reporting due to the volume of testing and positive cases.

As always, we thank you for your hard work and hope that we can count on all of us to further delay spread by wearing a face covering in public, inside or outside, frequent handwashing or use of hand sanitizer, stay home if you're ill, go out only when necessary and keep gatherings small and protected.

For more information on town specific status, please go to <https://www.mass.gov/info-details/community-level-covid-19-data-reporting> and click on Templeton.

As Thanksgiving nears, please keep in mind that transmission in families seems to be one of the driving factors in the rise of positive cases; as an example, Templeton has two households with five positive cases each, accounting for almost half of our cases. The Governor is hoping that you will self-monitor and have ten or less people for the holiday.

If you wish to be tested for COVID-19, please go to <https://www.mass.gov/doc/ma-covid-19-testing-sites/download>
