.....

Previous cases:

Recovered	132
Total deaths including (BNH)	17

.....

As of the evening of September 22, 2020, Templeton was notified of one active case of COVID-19.

At the Board of Health meeting of September 28, 2020, Chief Bennett joined the meeting to discuss Halloween and whether “trick or treat” would go on. After a very brief discussion, all felt that “trick or treat” can happen following the guidelines put out by MDPH and the CDC. The following link will take anyone interested to the page with those recommendations <https://www.mass.gov/news/halloween-during-covid-19>.

Please remember to protect yourself and your loved ones; wear a face covering in public and when you cannot maintain a 6’ distance from others, wash hands frequently and use hand sanitizer when you can’t, stay home if you’re ill and contact your physician, clean high touch areas frequently (light switches, door knobs, counter tops, etc...), thank you!!!

The State has started breaking down “hot spot” cities and town, the map can be viewed at <https://www.mass.gov/doc/COVID-19-average-daily-incidence-rate-august-11-2020/download>

If you wish to be tested for COVID-19, please go to <https://www.mass.gov/doc/ma-covid-19-testing-sites/download>
