3RD Quarter Report FY21

The 3RD Quarter of FY21 was difficult at times with many employees, including myself dealing with COVID-19 issues. Fortunately, all our employees and their respective family members survived the rash of COVID-19 cases we experienced. We as a department would like to express our deepest condolences to all the families of our community that experienced a loss during this difficult time. As our community members become vaccinated against COVID-19 we look forward to better times.

The Station Project – The Sally Port project contractor was out and made repairs to one of the footings, which was under warranty. We are still working our way through the HVAC system issues and hope to be moving forward with a resolution soon. After speaking with a local flooring contractor, the only resolution for the flooring issue maybe to put another floor directly over the current floor.

The department has seen some other projects completed in this quarter such as the eCitation equipment installed in the patrol units and the Live Scan Fingerprint machine put online. Officers are currently going through training to be able to utilize this new equipment. Also, the department has will be participating in the Autism Awareness Patch Program to benefit the Doug Flutie Foundation for Autism Awareness Month in April. These patches will be for sale to the public and details are available on our Facebook page.
