

## Templeton Sewer Department

### Sewer Connection Application

This form needs to be filled out and returned to the Templeton Sewer Depart., 33 Reservoir St. Baldwinville, MA 01436, prior to any work being done. After the line has been inspected, we will mail you a copy of an approved copy of the sewer application (if requested).

**The Home owner or Contractor will be required to call Dig Safe for a permit number before digging. The Dig Safe # is 1-888-344-7233.**

Any pipe installed through the cellar wall must be done by a licensed plumber- This is State Law.

After the ditch has been dug and pipe installed, it must be inspected by authorized personal (of the Templeton Sewer Dept.) before filling in the ditch. Please let us know **a day or two in advanced when you will want the ditch inspected**. Our phone number is 978-939-2563. The office secretary can be reached from 7:00 AM to 3:00 PM, Monday Thru Thursday.

A Ferncol Fitting must be used or other fitting designed for PVC, not a Transite Donut.

You must notify the Templeton Sewer Dept. as soon as you are connected (if you do not connect at the time of the inspection) so that we can get a meter reading. If the Sewer Dept. **is not notified with in 30 days**, you will be charged for Town Sewer at the time of the connection, based on your water reading.

A copy of the measurements will be given at the time that a sewer application is taken out at no charge. The home owner will pick up the application to fill out. If more copies of the measurement or permits are needed there will be no charge.

\*\* This application is considered a binding agreement and must be signed personally by the property owner and the license contractor/plumber.

Applicants are reminded that sufficient information must be supplied on the CONNECTION DIAGRAM to identify the allotment to which the application refers. This should include nearest cross street and any other necessary identification. Adequate survey pegs defining the front boundary must be available on site to enable installation of the service in the correct position. The applicant is responsible to ensure that the area at which the service is to be installed is within the boundaries of the property unless prior easements are obtained. \_\_\_\_\_
