

(Dragging agriculture into your world.)

Meet some great people who provide food to eat, fiber for warm socks, and the working landscapes that make our part of the world so beautiful.

Learn new things – each farm will have a “project” for you to participate in. Join us and explore a different part of the state we all call home.

North Worcester County used to be labeled as “there be dragons here!!!”. Not anymore! North Central Mass is home to innovative, diverse and productive family farms – hidden jewels in the heart of the commonwealth.

Explore 4 Central Mass towns over 3 weekends, 12:00-4:00pm, through their farms and agricultural partners.

Overall, 12+ farms will be participating, at least 3 farms in each community representing the spectrum of agriculture – vegetable and meat producers, horse boarding and lessons, goats, ducks, chickens, maple sugaring, apples, bees, custom growing, and more. Three summer Sundays to learn about the vibrant farming community and local food producers of North Center Massachusetts.

July 22 Westminister
August 5 Lunenburg
August 12 Ashburnham and Templeton
See reverse for a list of the farms

For more information check out ProgressiveFarmTour.com

or contact altobellim260@comcast.net and put farm tour in the subject line.
