Templeton Unveils Updated Website

The Town of Templeton rolled out its new website over the weekend of March 23, 2019. The update has been in the works since last spring. The objective was to make the website more user-friendly, especially for mobile phones and devices with an easier to navigate, updated format to keep community residents, businesses and visitors informed.

Ms. Jackie Prime, the Community Services Director, and Ms. Holly Young, the Assistant to the Town Administrator (who manages & updates the website), have been working on many aspects of the new website over the past several months in anticipation of the implementation of the new website. The two worked with Mr. Carter Terenzini, the Town Administrator, in making necessary changes to give the new website an updated look and a better layout.

A website policy should be complete in the late spring, which will include parameters on the businesses and organizations that will be welcomed to post events on the websites new Community Calendar. The 300+ local businesses and community organizations will be invited to a public meeting showcasing the Calendar and explaining how the Town will help to promote local events through the websites Calendar.

After the draft of the updated website was presented to the Board of Selectmen at their workshop meeting on February 6, 2019, they reacted with accolades to the team for their efforts. Mr. John Caplis, the Chairman of the Board, recently said, “the new website looks great with a clean, professional appearance and well-organized information”.

As with any update, there are always a few kinks to be worked out. For questions or with suggestions of items you may like to see on the website, please contact Holly Young through the website at: <http://www.templetonma.gov/board-of-selectmen>
