

TOWN OF TEMPLETON, MASSACHUSETTS

FY '21 Budget & Legislative Package

ADDENDUM & ERRATA #1 – March 3, 2020

1.) On page 23... Line 11... “...sue...” should be “...use...”.

2.) On page 130, it says that "... safety glasses has been increased from \$165.00 to \$200.00 in the year and will be raised to \$3000. next year."

That line should have been struck. The amount allowed for safety glasses is now \$200 "... in a given fiscal year or up to four hundred (\$400) in the second year..." (i.e. bi-annual). There is no need to adjust the actual request in the 5110 account.

Q. State PILOT Payment: The MMA notes that “The governor's budget would level fund the Payment -in-Lieu-of-Taxes account at \$30 million...” What is the status of this item?

A. H1 would cause the payment to us of roughly \$80k (Page 29 Account 46-4610). While this is roughly \$3k above FY '20 it is roughly \$30k below that of FY '19. The MMA is advocating for the state to fund all communities at the higher of their FY '19 level (“hold harmless”) or the amount dictated by the formula used for H1.
