☐ No

If not, please list the potential funding cycles for the proposed project:

Drainage work would be done by DPW
Road work Reclaiming, Milling and Paving
with adjusting gate boxes, manholes, catch basins would
be done by Mass Break and Stone Inc.

Describe the proposed project's outcome measurements and goals (e.g. deadlines, community impact, relation to eligible uses of funding, etc.):

This is one of our longest roads which has a few
small sections done. Finishing this road from Arpa Street
will be a big relief and moving forward to pave
more other roads with Chapter 90. Will improve emergency
Response and Break downs to drive equipment along
with every day complaints

Discuss the estimated budget for your proposed project:

With ARPA being available this would move us forward in our pavement plant and advance to getting more pavement down. We are probably looking at about 20 million to pave all of Templeton. We being Templeton need paved roads way way over due.
